NATURWISSENSCHAFTLICHE
FAKULTÄT

Mini-Series

Exploring Gravity

Understanding the exploration of gravity with future instruments and its relation to multi-messenger observations.

April 12th, 16.00h CEST

LISA and the LISA pathfinder

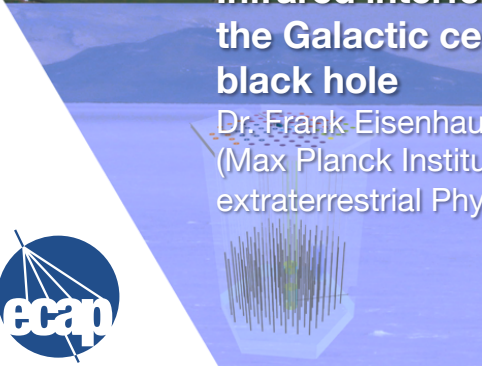

Dr. Ira Thorpe
(NASA Goddard Space Flight
Center)

April 15th, 16.00h CEST

Infrared interferometry of the Galactic center black hole

Dr. Frank Eisenhauer
(Max Planck Institute for
extraterrestrial Physics)
