

Session Program

20 July 2026

FRANCI 2026

Presentations

JMU Würzburg, Ground Floor Seminar
GSST Building Campus Hubland Nord Beatrice-Edgell-Weg 21

Monday 20 July

10:15
10:30
10:30
11:30
12:00
13:00

Presentations: Welcoming remarks
Session |
Location: JMU Würzburg, Ground Floor Seminar, GSST Building Campus Hubland Nord Beatrice-Edgell-Weg 21

Presentations: Session 1
Session |
Location: JMU Würzburg, Ground Floor Seminar, GSST Building Campus Hubland Nord Beatrice-Edgell-Weg 21

10:30-10:45 **New developments in the WMT project (TBD)**
Speaker
 Matthias Kadler

10:45-11:00 **IACTs in a Different Light: Pointing, Calibration, and Optical Astronomy**
Speaker
 Gerrit Roellinghoff

11:00-11:15 **Status of the Small-Sized Telescope Camera for CTAO**
Speaker
 Giulia Cantarini

11:15-11:30 **Hot subluminoous stars in the Plato era**
Speaker
 Anna Gebhardt

Presentations: Session 2
Session |
Location: JMU Würzburg, Ground Floor Seminar, GSST Building Campus Hubland Nord Beatrice-Edgell-Weg 21

12:00-12:15 **Overview of radio astronomy in AG Kadler (TBD)**
Speaker
 Lovis Haury

12:15-12:30 **Constraining the Enigma of Pulsar Halos with eROSITA**
Speaker
 Martin Mayer

12:30-12:45 **Probing extreme processes in AGNs with numerical simulations**
Speaker
 Ainara Saiz Pérez

12:45-13:00 **Wind Related Background Events at the Radio Neutrino Observatory in Greenland**
Speaker
 Pascal Schriefer

14:30

Presentations: Session 3**Session** |**Location:** JMU Würzburg, Ground Floor Seminar, GSST Building Campus Hubland Nord Beatrice-Edgell-Weg 21

14:30–14:45

Water Tank-Based Measurement System for Optical Modules of Neutrino Telescopes**Speaker**

Simon Koch

14:45–15:00

ML pipeline to detect HOMs for the ET Phase Camera**Speaker**

Stuti Sharma

15:00–15:15

Overview of multimessenger astronomy in AG Buson (TBD)**Speaker**

Leonard Pfeiffer

15:15–15:30

Bamberg #4**Speaker**

TBD

15:30

16:00

Presentations: Session 4**Session** |**Location:** JMU Würzburg, Ground Floor Seminar, GSST Building Campus Hubland Nord Beatrice-Edgell-Weg 21

16:00–16:15

Systematic study of HII regions in the Magellanic Clouds with eROSITA**Speaker**

Mar Canal i Saguer

16:15–16:30

Overview of high-energy astronomy in AG Mannheim (TBD)**Speaker**

Katharina Brand

16:30–16:45

Nuclear Astrophysics and MeV Astronomy**Speaker**

Laura Eisenberger

16:45–17:00

Bamberg #5**Speaker**

TBD

17:00
